

## Mother Nature, Designer

Investigate and use drawings, collage and textile materials and processes to communicate ideas about line, shape and colour based on nature.

### Practical Work

Visit Willow Grove Cemetery in the Autumn and collect dead or dying materials such as fallen leaves, twigs, acorns, conkers, bark, seeds, etc.

Take close up photographs too.

### Classroom Work

Collect fabrics to match the found objects. These will be cut out and joined together to make individual collages. Photographs printed out can also be cut to shape.

Draw some of the objects and colour them in. Cut them out ready to make a collage.

*Student Worksheet ArtDesign KS1\_1*

Draw some of the objects in outline only. Cut out the outlines to make templates and then draw round them and cut out fabric shapes.

*Student Worksheet ArtDesign KS1\_2*

Develop a collage including actual collected objects, the coloured drawing cut outs, photographs and the fabric shapes.
